### Joint EU SPACE Strategy and Operational Planning Workshop of NCDD-S & GIZ

**Intercontinental Hotel, Phnom Penh, January 27<sup>th</sup> and 28<sup>th</sup>, 2014  
Ministry of Interior, Phnom Penh, February 19<sup>th</sup>, 2014**

The EU Program for Strenghtening Performance, Accountability and Civic Engagement (EU SPACE) is a joint technical cooperation mechanism of various European Development Partners. EU SPACE has been designed to support the National Committee for Sub-National Democratic Development (NCDD) in implementing its National Program for Sub-National Democratic Development (NP-SNDD). EU SPACE is aligned with RGC's SNDD reform program and committed to responding to the priorities of NCDD and its Secretariat as much as possible within the agreed EU SPACE mandate of contributing to the strengthening sub-national councils and to an enabling legal and policy environment for democratic accountability. The main instrument of the specific GIZ modality of "technical cooperation" and "direct contributions" consists of a team of international and Cambodian long-term advisors. The technical, policy and process advice provided by this team is supplemented by short-term consultants who are contracted when needed to carry out specific tasks that require highly specialised technical know-how.

In order to agree on the reform areas and specific outputs with regard to which the specific GIZ modality provides for the most added value and comparative advantages in the NCDD Annual Work Plan and Budget 2014, a joint EU SPACE Strategy and Operational Planning Workshop was conducted by the NCDD Secretariat and GIZ on January 27<sup>th</sup> and 28<sup>th</sup> with a follow-up meeting on February 19<sup>th</sup>. In addition to the operational planning 2014, NCDD-S and GIZ jointly developed a "vision 2016" with milestones for 2014 and 2015 based on which the indicators of EU SPACE were reviewed and expanded.

The results of these meetings are documented here.
